

Serial No. 009/965,171

49. The method according to Claim 46, wherein the providing step includes further providing:

(iv) a first lever coupled to the first end of the first part;

(v) a second lever coupled to the second end of the first part, the second lever being rotatable relative to the first lever; and

(vi) the actuator being operatively coupled to at least one of the first and second levers for rotating the first lever with respect to the second lever.

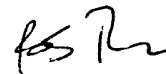

50. The method according to Claim 49, wherein the manipulating step is carried out with the actuator being operatively coupled to the first and second levers for moving the first and second ends.

REMARKS

Attached hereto is a marked-up version of the changes made to the specification and claims by the current amendment. The attached page(s) is/are captioned "Version with markings to show changes made".

Applicant believes the specification is now in order for allowance.

Respectfully submitted,

By: Brian S. Tomko
